

DIGITAL COMMUNICATIONS

2026.2.1 RELEASE NOTES

Enhancements & Modifications

Latency Improvements

- Backend optimizations to improve overall system responsiveness and reduce load times across the platform.

Enforce HTTPS

- All Digital Communications pages and features now automatically use HTTPS connections.

General Enhancements

- Preview Send Sample UI updated for consistency with the redesigned email editor.

The screenshot shows a 'Send Sample' dialog box with the following elements:

- Close button (X) in the top right corner.
- Email name: Welcome Announcement Q3 2026
- Sample type: HTML Only (dropdown menu)
- Custom message: Empty text area
- One-time list (selected) and Approval list (disabled) buttons
- Send separate emails
- Email Address list with two entries (1 and 2) and a search icon
- Close button at the bottom left
- Send button at the bottom right

- Standardized merge field display names in DCP to match MDP, improving consistency across platforms.

Bug Fixes

Reporting

- The Open/CTR Trends report now uses the same aggregate data as other DCP reports, improving data consistency and reliability.
- Refined report-only user permissions to ensure access is limited to explicitly granted reports and content, enhancing data security and visibility control.

General Fixes

- Improved the reliability of DOD Print to ensure eligible print records are processed and delivered consistently.
- Updated Social YouTube link handle format to ensure correct channel access and functionality.

Version Check

Ever wonder what version you are on? Simply click the SUPPORT link at the top right corner of the page. If it doesn't match the screenshot below, please contact [Marquis Support](#) or your Client Relationship Manager.
